**2 SIGNIFICANT ACCOUNTING POLICIES (continued)****2.7 Investments (continued)****(a) Investments in subsidiaries (continued)**

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the separate income statement when incurred.

*Depreciation and amortisation*

Fixed assets are depreciated and amortised using the straight-line method so as to write off the historical cost of the fixed assets over their estimated useful lives. The principal annual rates of each asset class are as follows:

If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as a financial expense. Changes in the provision balance during the accounting year are recorded as an increase or decrease in operating expenses.

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)****2.16 Capital and reserves**

The areas involving significant estimates and assumptions are as follows:

- Provision in diminution in value of investments (Note 4);
